Ancient St. Danijela ruins

Once famous pilgrim church, located under Gorjanci at the head of a pilgrim's trail ending somewhere in the middle of Gorjanci raises more questions than answers.

Start your hike at Tolsti vrh region. Taste some cvicek and then ask locals for Daniel ruins. You'll probably end with even more questions.

Here's a map and church ruins photo.

For those using navigation, here's detailed location:

Normal GPS Coordinates (WGS84 Datum)

Decimal 45.80203 15.29072

DDD MM.MMM N 45° 48.122 E 015° 17.443

DDD MM SS.SSS N 45° 48' 07.3188" E 15° 17' 26.5812"

It's easy walk, suitable for young children. It will take from half an hour to 2 hours (one direction) - depending on your interest about nature and surrounding area.

If you decide to pass Daniel and continue, the footpath will lead you by this tower all the way to the [Gorjanci summit](#).

There's a geocaching at Daniel church:
