Staring point(s)

Nearest vilage is Tolsti vrh

It's recommended to leave your car at church in the vilage and take a walk around 30minutes to Cache location.

There are other starting points available affording nice walk for familly or just to enjoy the scenery of [Gorjanci](#) and nice [nature](#).

Here are my suggestions:

Starting point	Location type	N Lat (WGS84)	E Long (WGS84)	Walking time	Elev.	Air dist. (km)
Otocec	Castle, hotel	45° 50.2811'	15° 14.1210'	4h	192	5.9
Gracarjev turn	Old castle	45° 48.9570'	15° 17.7949'	1h	242	1.6
Prezek	Old castle	45° 47.8054	15° 19.3132	2h	318	2.5
Pleterje	Cloister and museum	45° 49.0607	15° 21.1299	3h	238	5.1
Novo mesto	Nearest town	45° 48.2813	15° 10.0320	6h	202	9.6

Destination

The destination is:

Lat: 45 deg. 48.1219 min. N

Long: 15 deg. 17.4429 min. E

Cache is hidden on the [ruins wall](#) inside recess (shallow hole in the wall). Exact location is shown on ground plan:

Here, 2.5m above ground

It's behind the ruins, on east side, on plan above is marked with red triangle. Two photos are available too:

Cache contents

At the time of stashing the cache, there was a log book, a pencil with sharpener, stash notes in English, German and Slovenian language and special prize for the first who will catch the GeoCache - a music CD:

Other notes

In case you decide to have longer walk up to the peak of Gorjanci, this location is just the starting point. There is pleasing route through the forest all the way up to the Gorjanci summit, called Trdinov vrh. It's worth the effort going through virgin forests and enjoying in the nature.

Other, close destinations (point of interest) are:

POI	Location type	N Lat (WGS84)	E Long (WGS84)	Walking time	Elev.
Trdinov vrh	Summit	45° 45.5876	15° 19.0882	3	1178
Gospodicna	Hut, "magic" well	45° 45.9967	15° 17.8396	3	841
Miklavz	Hut	45° 46.5778	15° 19.3600	3	964
Grobisce	Arheological site	45° 47.2655	15° 20.2740	4	697
